

AYUSH KUMAR

Software Engineer | Full Stack Developer

notastheticallyayush@gmail.com • +91 9336444245 • [LinkedIn](#) • [LeetCode](#) • [Portfolio](#)

EDUCATION

Galgotias University

Bachelor of Technology in Computer Science (GPA: 9.37/10.00)

2024 – Present

Greater Noida, UP

City Montessori School

ISC with Physics, Chemistry, Mathematics (93.67%)

2020 – 2023

Lucknow, India

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, TypeScript, C++, SQL, Dart

Frameworks & Libraries: Spring Boot, Flask, Django, Node.js, Express.js, React.js, Next.js, Flutter

Databases & Cloud: PostgreSQL, MongoDB, MySQL, Supabase, AWS (EC2, S3), Render

Tools & Technologies: Git, GitHub, Docker, Linux, Maven, JDBC, Postman, REST APIs, GraphQL, CI/CD

Core Competencies: Data Structures & Algorithms, System Design, Microservices, MVC, JWT Authentication, Agile, Scrum, Unit Testing

PROFESSIONAL EXPERIENCE

Open Source Contributor – FOSSASIA

Backend Developer (Django / REST)

Jan 2026 – Present

Global Remote

- Contributed 5+ merged PRs across production Django services, improving stability and maintainability for a global open-source platform
- Fixed 8+ critical backend bugs, improving API reliability and system performance
- Collaborated with maintainers on scalable REST APIs, authentication flows, and backend refactoring

PROJECTS

Necter E-Commerce Platform

Next.js, React.js, TypeScript, PostgreSQL, Supabase

[Live Demo](#) • [GitHub](#)

- Built full-stack e-commerce platform serving 500+ users with real-time cart, payments, and responsive UI (95+ Lighthouse score)
- Implemented OAuth authentication + RBAC system with REST APIs, achieving 99% query success rate via PostgreSQL optimization
- Reduced page load by 30% using Tailwind CSS + GSAP animations for production-ready performance

CareerGuru – AI Career Platform

Python, Flask, PostgreSQL, Groq AI APIs

[Live Demo](#) • [GitHub](#)

- Developed Flask REST API handling 100+ concurrent users (<200ms response) with AI-powered career recommendations (+45% engagement)
- Optimized PostgreSQL with indexing (25% latency reduction) + deployed CI/CD pipeline on Render (99.5% uptime)

Restaurant POS System

Java, JavaFX, PostgreSQL, JDBC, MVC

[GitHub](#)

- Built enterprise POS processing 500+ transactions with MVC architecture + JDBC connection pooling (20% faster billing)

LEADERSHIP & ACHIEVEMENTS

Team Lead – Smart India Hackathon

Top 20 (2025)

Led 6 developers to build/deploy AI platform in 24hrs using Flask + PostgreSQL

Runner-Up – GDG Hackfest 2025

Mentored Flutter + Node.js mobile app development with REST APIs

Open Source – FOSSASIA

Jan 2026 – Present

5+ merged PRs, 8 critical Django bug fixes for global community

Competitive Programming

100+ LeetCode problems (Algorithms, DP, Graphs, System Design)
